I really want to reach out and let you know that your crew on the Washington St. project has been so kind and so respectful, during construction. This has been a very long project, but your crew has made sure that when they can, they are kind to smooth the way, so we can get in our driveways. They are very much in communication with us, when that isn't an option.

Yes, I bought them donuts, as couple weeks ago. If I get up early enough, maybe cookies tomorrow.

Seriously, you should be very proud of the crew you employ! They are so nice to have in my neighborhood!

Tammie
